

María Yzuel Fellowship Awards

ICFO aims to attract outstanding, talented women to undertake an ambitious research project with an ICFO research group and launch an exciting career in frontier research.

Undergraduate and Masters Students:

Up to 5 fellowships available for outstanding female undergraduate and masters students to conduct a Research Internship or Master Thesis at ICFO.

Program details and applications are available at <http://jobs.icfo.eu>

PhD Students:

Up to 4 PhD-fellowships Up to 4 PhD-fellowships co-financed with the ENLIGHTEN MSCA program available for outstanding women to undertake a PhD with one of ICFO's research groups.

For PhD Fellowship Program details, please visit <http://phd.icfo.eu> and to submit your application <http://jobs.icfo.eu>

Available research lines include:

- Biophysics & Biomedical Optics
- Optical Sensing, Optoelectronics & Photovoltaics
- Nonlinear Optics, Ultrafast Optics & Atto-Physics
- Nanophotonics, Optomechanics & Nanomechanics
- Experimental Quantum Optics & Quantum Information
- Theoretical Nanophotonics, Quantum Optics & Quantum Information

For further information about the research groups and activities at ICFO, please visit <http://www.icfo.eu/>
For additional questions, please contact us at jobs@icfo.eu.

Deadline for applications: January 19, 2020

This project has received funding from the European Union's Horizon 2020 research and innovation program under the Marie Skłodowska-Curie grant agreement N° 847517.
